VETS Dedication

Given the variety of business models in support of Agency mission, there is no single solution to all information technology service and support needs. **Veterans Enterprise Technology Solutions, Inc. (VETS)**, a Service-Disabled Veteran-Owned Small Business, brings our years of experience and insight to each project.

VETS partners with our customer to understand the need, define requirements, create an innovative and future-oriented design, develop using our Agile methods to increase performance, and **deliver solutions addressing the needs of today and tomorrow.**

In addition to serving as **the experienced and innovative hosting services contractor** for multiple organizations, VETS is committed to our customer and their mission. Based upon your need, our teams are able to **scale quickly to meet surge needs including 24/7 staffing and operation support.**

Work with VETS to develop and deploy your Cloud migration. Our experience professionals are **dedicated to increasing your system performance, maximizing your IT investments, and delivering reliable user-centric solutions.**

VETS Proven Experience

Veterans Enterprise Technology Solutions, Inc. (VETS) has successfully supported a number of DOD organizations and Federal agencies, including:

USTRANSCOM

- DPS-TOPS (Reengineering and software maintenance support)
- CCE (Infrastructure technical support)
- SRC (Tier 1 support for GFM and DPS)
- GATES surface (Training and Tier II support)
- ACFP (Functional Help Desk)
- SDDC (BRAC movement from VA to Scott, AFB)

US Army

- Army G2 (Classified Systems Maintenance and Web Support)
- Army Cadet Command (Customer Service)
- MCC Belvoir (SharePoint and Network Administration)

US Air Force

- BEAR and FORCE (Distance Learning)

Department of Veterans Affairs

- Systems development and maintenance
- J2EE technical design and standardization
- Desktop support
- Section 508 Testing and Training

Federal Aviation Administration

- SharePoint Applications development and maintenance

Small Business Administration

- Infrastructure reengineering and maintenance

Department of Homeland Security

- Immigration application processing

VETS Testing / IV&V

requirements of our diverse clientele, VETS **incorporates guidelines from industry best practices** to provide a foundation for our test management process, coupled with rigorous execution that enables product and service development to be repeated with high levels of decisive success.

While quality assurance is the heart of Testing and IV&V, **VETS integrated approach maximizes the value of the development**; validating requirements against need, focusing on early detection and risk identification throughout development, documenting enhancements along with bug-fixes, implementing repeatable test methods, and our robust knowledge and experience with applications and systems of all sizes makes VETS a detail-oriented, mission-focused partner.

Usability for All – Section 504 & 508 Compliance

Ensuring high quality user experience for all is the motivation of VETS 508 teams. **Employee our experience supporting multiple organizations**, including Department of Veterans Affairs, in ensuring website, application, and system compliance with the updated Sections 504 & 508 standards.
