NASA SEWP VI

Solutions for Enterprise-Wide Procurement

Contract Holder

SEWP OVERVIEW

NASA SEWP VI provides Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for Federal agencies and their approved contractors. Created in 1993, SEWP I was the first Government-Wide Acquisition Contract (GWAC) in the federal acquisition space. Originally focused on technology products, SEWP has evolved to include broader solutions and services.

The program is self-funded through usage fees (0.34%) and provides Federal agencies with acquisition support. VETS holds a Category C award for Mission-Based ITC/AV Service Solutions under contract 80TECH26D0384.

FAIR OPPORTUNITY

Contractors are provided a fair opportunity at the individual order level, as appropriate under FAR 16.505(b), including through the SEWP RFQ tools. The issuing procurement office maintains the documentation supporting order selection.

Use the NASA SEWP online quotation tools to support competition and the agency's required decision documentation. VETS may respond to an RFQ only with offerings available on its contract and within its authorized scope. Quotation validity must be stated, and orders submitted within that period must be honored.

ABOUT VETS

Veterans Enterprise Technology Solutions (VETS), Inc. is a Service-Disabled Veteran-Owned Small Business (SDVOSB) and Woman-Owned Small Business (WOSB), committed to improving the welfare of our nation's citizens.

WHAT'S IN SCOPE FOR SEWP VI?

SEWP VI is designed to provide a broad suite of ITC/AV solutions and services. The program comprises three scope categories:

- Category A - ITC/AV Solutions
- Category B - Enterprise-Wide ITC/AV Service Solutions
- Category C - Mission-Based ITC/AV Service Solutions (VETS, INC. was awarded a SEWP contract for Category C)

VETS is awarded Category C only. Only offerings within the authorized scope of VETS' award and available on its SEWP contract may be quoted or ordered. Contact Jim Moody to confirm whether a requirement is within VETS' scope. For a SEWP scope review, send an overview and/or bill of materials to help@sewp.nasa.gov.

ORDERING PROCESS

1. Define the requirement. Follow your agency's internal purchase request, funding and procurement procedures. Agency procurement offices issue delivery orders; the NASA SEWP PMO does not issue them.

2. Request a quotation. Use the applicable NASA SEWP online quotation process. For VETS sales assistance, contact Jim Moody at 434-738-8945 or JMoody@vets-inc.com. Provide the requirement or statement of work, agency contact, performance location, required schedule and supporting specifications.

3. Review and issue the order. The issuing agency follows its required review and approval process. Identify VETS contract number 80TECH26D0384 and the applicable VETS quotation on the order. Use the agency's valid delivery order form and number.

4. Route the order. The NASA SEWP PMO reviews, processes and tracks issued delivery orders and forwards them to contract holders. Route orders and subsequent modifications through the SEWP PMO in accordance with the applicable SEWP process and agency procedures.

INSTALLATION, WARRANTY AND POST-DELIVERY SUPPORT

For installation arrangements, basic or extended warranty information, technical support, software support and other post-delivery assistance, contact Jim Moody (434-738-8945; JMoody@vets-inc.com) or Becky Camp (434-374-5899; rcamp@vets-inc.com). Request the policies, procedures and coverage applicable to the quoted offering or awarded order. This guide does not establish additional warranty coverage, support hours or response-time commitments.

ORDER ISSUES AND ESCALATION

Report order problems to Jim Moody using the contact details above. Include the delivery order number, VETS quotation number, contract number 80TECH26D0384, a description of the issue and your contact information. For additional program management assistance, contact Becky Camp. For NASA SEWP ordering assistance, contact help@sewp.nasa.gov or (301) 286-1478.
